INTERIOR WATERBORNE SYSTEMS

SEALERS & PRIMERS

6FWPI130 White Waterbased Primer

A white water-based primer, formulated for coating of MDF. General characteristics of this product are high build and excellent sanding, good flow and fast drying (if used as mono-component, while dry time is longer if it is catalysed with 6CW1).

- 59% weight solids; 44% volume solids
- 2-4 hrs to sand; 24 hrs to stack
- Optional 10% catalyzation with 6CW1 for added durability.

TOPCOATS

60W098G Waterbased Self-Seal Topcoat

A versatile, one component, clear waterbased topcoat for furniture and general wood applications. It has good chemical resistance and excellent transparency.

- 30% weight solids; 28% volume solids
- 65" viscosity Zahn 4 @ 20°C
- 3 hrs to sand; 8-12 to stack
- 10,30, 60 degree sheens

60WB001 Bicomponent Waterbased Topcoat

A matt, bicomponent topcoat for interior, characterised by fast drying time, good scratching resistance, surface hardness, optimal chemical and non yellowing resistances. Surface smoothness and build are higher, similar to a solvent based PU or acrylic.

- 38% weight solids; 36% volume solids
- 17" viscosity Zahn 2 @ 20°C
- 40 min to touch; 16 hrs to stack
- 10,30,60 degree sheens available
- 20% catalyzation with 6CW1; >2 hrs pot-life

60WPI530G White Waterbased Topcoat

A white mono component waterborne matt topcoat for interior use. Characteristics of the product are good smoothness and slip, non-yellowing and excellent scratching resistance.

- 42% weight solids; 31% volume solids
- 80" viscosity Zahn 4 @ 20°C
- 65 min to touch; 24 hrs to stack
- 10, 30, 60 degree sheens

ITALIAN POLYURETHANE TECHNOLOGY

Sirca is a global leader in the development and manufacturing of the highest quality industrial wood coatings. The Sirca line is a broad assortment of industry leading technologies including clear & pigmented polyurethanes, acrylic polyurethanes, waterborne & UV coatings, interior & exterior systems and stains.

Katilac Coatings Inc. (KCI), a Canadian manufacturer of conventional acid cured wood coatings including pre- and post-catalyzed lacquers, conversion varnishes, waterborne finishes and colour systems. KCI is Sirca's partner to bring their Italian finishes to the Canadian market.
