OMNIPRIME™

Pre-Catalyzed Pigmented Primers

The foundation of a great pigmented pre-catalyzed system

OMNIPRIME™

Pre-Catalyzed Pigmented Primers

The OMNIPRIME™ family of primers are solvent borne, pre-catalyzed, alkyd / amino resin based pigmented primers. They are fast drying, easy to sand, exhibit excellent filling properties, and provide great adhesion to MDF. OMNIPRIME™ primers have been specifically engineered to be used in conjunction with E7 Series PRIZM™ White Pre-Catalyzed Lacquers.

OMNIPRIME™ Pre-Catalyzed Pigmented Primers are suitable for use on cabinetry, furniture, moulding, trim, and general interior millwork. Limitless colour options are possible through custom tinting at your local KCI distributor.

E16 OMNIPRIME™ Spray Ready Vinyl Modified White Pre-Catalyzed Primer can be tinted with 844 Series Colourants up to a maximum of 5% by volume. For deep tinted systems use E15 OMNIPRIME™ Neutral Pre-Catalyzed Primer which can be tinted up to 10% with 844 Series Colourants.

E15 OMNIPRIME™

Neutral Pre-Catalyzed Primer

- 52% weight solids
- 34% volume solids
- Viscosity: 80-100" Ford 4
- 20% reducer required

E16 OMNIPRIME™

Spray Ready Vinyl Modified
White Pre-Catalyzed Primer

- 45% weight solids
- 32% volume solids
- Viscosity: 40-45" Ford 4
- No reducer required
