

KATILAC COATINGS INC.

DURAPRIME™

Post-Catalyzed Primers

Premium pigmented post-catalyzed primers for cabinetry & millwork

DURAPRIME™

Post-Catalyzed Primers

The DURAPRIME™ line of primers are solvent borne, two component alkyd / amino resin based primers. They are available in white (D28HH) for light and off-white colours, and neutral (D17) for deep colours. They feature high solids, exceptional filling and timely sanding. DURAPRIME™ primers have been specifically designed to be used in combination with D9 Series White and D9N Series Neutral SUMMIT™ Conversion Varnishes as part of a high-quality interior wood finishing system.

Features

- Excellent MDF adhesion
- Low VOC
- Excellent flow and leveling
- Ultra low formaldehyde
- Exceptional chemical and moisture resistance
- Excellent filling and sanding properties

D28HH DURAPRIME™
